

# VISION ZERO ACADEMY

## Invitation to the Vision Zero course in Sweden

From the  
12<sup>th</sup> to 16<sup>th</sup> of  
September 2022  
in Gothenburg

**You are kindly invited to the Vision Zero International course in Gothenburg, Sweden, taking place the 12<sup>th</sup> - 16<sup>th</sup> of September 2022.**

Road traffic injuries are a global epidemic that is recognized by the international community and is a part of Agenda 2030 and the United Nations sustainable development goals (SDGs). In 1997, the Swedish Parliament adopted a 'Vision Zero' goal for road traffic, with the long-term goal that no one would be killed or seriously injured within the road transport system. Sweden has now more than twenty-five years of experience of implementation strategies and interventions based on Vision Zero, which will be explained in further detail in the course.

The course is organized by the Vision Zero Academy  
- a part of the Swedish Transport Administration  
- in cooperation with several partners from both industry and research. All practical matters will be managed by the Swedish Transport Administration's Education and Training Center.

Due to the pandemic situation, we were forced to cancel the 2020 and 2021 course, but we are hopeful that that the world will start to open up during the spring 2022 and we therefore plan to offer this course for the fourth time. The Vision Zero International course will be carried out in Gothenburg, September 12<sup>th</sup> - 16<sup>th</sup> 2022.

The course targets a broad audience and we welcome everyone who works directly or indirectly with traffic safety issues in various organisations such as government authorities, industry, municipalities, NGOs and academia, as well as for employees in international organisations with responsibility for public health and safety (e.g. UN, WHO). This course is limited to 25 participants. For more information, please see the separate course folder.

For registration, please use the following link:
