RAPPORT DÉTAILLÉ SUR DES POINTS CULMINANTS**DETAILED REPORT ON HIGHLIGHTS****Implementation of a Quality Management System UNE-EN ISO 9001:2000**

The Spanish NC has in a very advanced situation the documentation production for the implementation of a Quality Management System based on the model specified in the European Norm UNE-EN ISO 9001:2000.

The meaning of this Quality Management System is to:

- Ensure the fulfilment of the ATC purposes and internal operation norms, in accordance with the ATC rules.
- Adopt an unequivocal orientation to our members, tending to their needs of information and allowing easily their incorporation and participation.
- Perform the ATC activities and development of Technical Committees, Congresses and Conferences according to professional criteria and planned actions, avoiding the appearance of poor quality factors.
- Transmit to our providers and collaborators the same quality requirements.
- Promote internal actions to implicate, motivate and involve personal to achieve the quality aims and to improve the system.

PIARC Council Meetings

19th-24th November 2006, Madrid

Next PIARC Council Meetings will take place from 19 to 24 November 2006 in Madrid. Venue of the meetings will be: Eurobuilding Hotel.

During the meetings general items and budgets and accounts will be approved by the PIARC Council Meetings.

6th National Conferences on Road Safety
 9th–12th May 2006, Seville

Under the name “The Road Safety, the essential factor in the service quality”, the Spanish Roads Technical Association has organized in Seville the 6th National Conferences on Road Safety gathering more than three hundred professionals.

The meaning of these conferences was to offer a meeting and debate forum for analysis causes of high siniestrality on Spanish roads and for exchange of national and international knowledges and experiences which will allow improving security levels on Spanish roads. Conferences have included technical sessions and round tables where different topics on Road Safety have been discussed, especially focusing on infrastructure, and where speeches have been held as well.

At the same time, an exposition have been organized to let institutions and companies show and spread their achievements, just as their last innovations on the road safety: materials, equipment, implementation technics and systems, engineering consultancy services, computer applications..., allowing participants to know progresses in this field.

10th Road Maintenance Conferences
6th-8th June 2006, Cáceres

From 6th to 8th June 2006, the Road Technical Association has gathered in Cáceres more than six hundred road professionals during the 10th Road Maintenance Conferences. This edition has been the most crowded of this congresses biannual series.

Following the tradition of previous conferences, on this occasion the Maintenance Conferences have tackled maintenance national experiences and also works developed by international expert engineers, which will show us progresses on road management.

On 7th June in the afternoon participants have the chance to visit the bridges under construction over rivers Tajo and Almonte which belong to the new motorway that will be opened in July.

An exposition has been organized at the same time as the conference.
