**His Majesty King Mohammed VI, May God Glorify Him**

**A Word of welcome from the Minister  
of Equipment and Water  
Honorary president of the Permanent Moroccan  
Association of Road Congresses (AMPCR)**

On behalf of the Ministry of Equipment and Water and on behalf of the Permanent Moroccan Association of Road Congresses (AMPCR), I am pleased to invite you to attend the 11th edition of the National Road Congress, organized **under the high patronage of his Majesty King Mohammed VI, may God glorify him**. The congress will be held from the 10th to the 12th November 2022 in Dakhla, under the theme: « **What roles does the road infrastructure play in the new Moroccan model of economic and social development?** ».

The Kingdom of Morocco is at the dawn of the implementation of its new development model aiming at a qualitative leap of all its macro-economic indicators, through an improvement of its governance system in all sectors, and by overcoming the major challenges resulting from the health crisis related to Covid-19, as well as from the international geopolitical context. The road sector is among the promising sectors that must be included in this new strategy, serving as a model for the overall implementation of this major project, given the leveraging role that road infrastructure plays in the development of the country.

Moreover, the choice of Dakhla is dictated by the importance attached to the southern regions in government policies. Currently, these regions have major infrastructure under construction, which will ensure them an international opening, through the new port of Dakhla Atlantic, and regional integration with a high service level, through the expressway linking Tiznit to Dakhla.

Finally, I would like to welcome you to Dakhla while hoping for a broad participation in this event that will allow participants to learn about recent developments in the region of Dakhla Oued Eddahab, and to enrich the work of this congress through fruitful debates leading to relevant recommendations to achieve the desired strategic objectives.

**Nizar BARAKA**  
**Minister of Equipment and Water**

## The Permanent Moroccan Association of Road Congresses

The Permanent Moroccan Association of Road Congresses (AMPCR) organizes various events aiming at accompanying the evolution of the national road sector through an in-depth reflection of its members in supporting the development of the sector at the international level, and also by ensuring meetings of exchange and debate of specialists and Moroccan road experts around current issues.

The National Road Congress is particularly the most important event organized by AMPCR every four years.

The AMPCR brings together all road professionals as well as natural or legal persons who are directly or indirectly interested in road activities in order to promote consultation and exchange on subjects of professional interest.

The AMPCR ensures :

- providing organized support by all its members to all works of general interest concerning road engineering and road activities in general ;
- promoting exchanges between project managers, professionals of the road industry, operators of road activities, universities and engineering schools and exchanges between specialists in general ;
- centralizing documentation on road-related topics and promoting the publication of road-related works ;
- promoting actions aiming at improving the professional level of its members and the organization of scientific and technical cycles ;
- encouraging scientific and technical research ;
- promoting regional and international cooperation with similar associations.

**The Permanent Moroccan Association of Road Congresses (AMPCR) will organize in partnership with the Ministry of Equipment and Water the 11th National Road Congress in Dakhla from the 10th to the 12th November 2022 under the theme :**

**« WHAT ROLES DOES THE ROAD INFRASTRUCTURE PLAY IN THE NEW MOROCCAN MODEL OF ECONOMIC AND SOCIAL DEVELOPMENT? ».**
